

Robert Kregloh

Senior Software Engineer - Front End Web Developer

A creative, resourceful and ambitious software engineer with 10+ years' experience in designing and coding for the web. Seeking to apply and improve my skills every day in order to create high quality and highly usable web applications.

EXPERIENCE

Senior Software Engineer I @ IndicoData.AI

6/2023 - 8/2025

Developed and maintained React/TypeScript applications with a focus on scalability, performance, and GraphQL integration. Created and maintained a comprehensive design system and component library, enabling consistency and faster development across teams. Established best practices for unit and integration testing, as well as design system standards to streamline collaboration between designers and engineers. Led the architecture and implementation of two new UI applications from the ground up.

Software Engineer III (Senior UI Developer I) @ Cofense

6/2022 - 4/2023

Collaborated with UX Designers and Back End developers to deploy, maintain and develop various SaaS applications under the Cofense umbrella. Primary tools included Vuejs, GitLab, and an internal Vue JS Component Library.

Front-End Developer @ Datica

8/2021 - 5/2022

Worked with Vue JS and the Vuetify library to build a cloud compliance platform UI that integrated AWS and our API to allow customers instant HIPPA compliance.

Web Developer @ Firewalls.com

8/2019 - 8/2021

Developed and maintained a Magento 2 ecommerce website. Managed 3 developers and contributed to building a Laravel application, using Vue JS for the front end.

Front-End Developer @ BitLoft

8/2016 - 8/2019

Designed and developed internal web applications. Designed and coded wordpress pages for external clients.
